ŠIMON KÁŇA

Full-stack developer, software engineer, IT generalist

Email **simon.kana@seznam.cz** Website **simonkana.cz** GitHub **github.com/simonkana**

LinkedIn **linkedin.com/in/šimon-káňa** Location **Prague, Czech Republic**

PROFILE

Technically oriented professional with over five years of programming experience and approximately two years of commercial experience in web application development. My strongest areas are JavaScript, TypeScript, React, Next.js, Java and Spring Boot. I have worked on production applications for businesses and startups, as well as independent and freelance projects.

My experience covers frontend and backend development, REST API design and integration, relational databases, software testing and troubleshooting. I adapt quickly to new technologies and working environments, and value clear communication, reliable software and practical results.

I am currently looking for a full-time or contract role.

PROFESSIONAL EXPERIENCE

Aug 2024 – Jan 2026

Freelance Web Application Developer

Self-employed

- Delivered web applications and smaller software solutions for clients, from requirements analysis and technical design through implementation.
- Built frontend and backend features, worked with databases, REST APIs and external service integrations.
- Created utility scripts and automation, including Python-based solutions.
- Handled deployment, maintenance, troubleshooting and ongoing support, while communicating directly with clients and coordinating requirements.

Oct 2023 – Jun 2025

Full-stack Developer

Sentiscrape s.r.o.

- Developed and maintained production web applications for business and startup clients.
- Built frontend features with React, Next.js, JavaScript and TypeScript; developed backend services and REST APIs with Java and Spring Boot.
- Worked with relational databases, primarily MySQL, and ORM technologies.
- Tested functionality with Postman and unit tests, investigated issues using debugging and application logs, and collaborated on technical decisions, testing and deployment.
- Worked with Docker and shared development environments.

May 2025 – Jul 2026

Sales Specialist

Stavebniny DEK

- Helped customers identify their needs and find suitable solutions.
- Worked with internal systems, orders and day-to-day business processes.

EDUCATION

2017 – 2021

Masaryk Grammar School

Vsetín, Czech Republic

Secondary education completed with the school-leaving examination (Maturita); specialised courses in IT and programming.

TECHNICAL SKILLS
